Our Philosophy - We Are NOT Your Typical Window Replacement Company

We understand that what's best for some may not be best for others. That's why we pride ourselves on offering the greatest selection of products and options available in our markets - including vinyl, composite, fiberglass, and wood - from several manufacturers. Whether you are looking for replacement windows, doors, siding, blinds, or even a beautiful new sunroom, we can help. We provide honest, unbiased education and advice to help you choose the products that will work best for you and your family.

Replacement Windows, Doors, Siding, Blinds...and Sunrooms!

For nearly 15 years, we have earned the trust of thousands of homeowners by providing beautiful, high-quality, energy-efficient, and professionally installed replacement windows, doors, siding, and blinds. We can also enhance your home's long-term value and expand your usable living area with a modern and efficient sunroom or patio enclosure. Each one is custom-designed, professionally finished, and built to look like it has always been part of your home, not an afterthought. All while being backed by the quality and care of our local Window Depot staff and installation teams.

Creating Happy Customers

Customer satisfaction is our top priority. From your initial contact with our company through the successful completion of your project and beyond, our goal is to provide you with the very best home improvement experience possible. We are committed to building and maintaining positive, long-term relationships. We have built our name and reputation on providing honest advice, quality products, professional installation, and exceptional service. If you are not satisfied, we are not satisfied.

Stress-Free Consultations

Our Professional Consultants

Instead of a transactional sales process, we provide a two-way educational opportunity. Our consultations begin with questions to better understand your needs and objectives. Then we educate you on the various products and services available that will meet your needs. We help you select the most appropriate product(s) for your home and budget. The last thing you need is high-pressure sales tactics, gimmicks, or intimidation to coerce you into buying something you don't need, or at a time when you are not ready.

Our In-House & Certified Installation Teams

Professional Installation

Providing great products and service is not enough. The most modern and efficient windows will not perform properly if they are not installed correctly. That's why we employ dedicated in-house installers - not subcontractors - whose main focus is quality, not quantity. Our installation crew leaders are experienced professionals who use methods and techniques that meet or exceed established industry standards. They have each achieved certification through rigorous industry-leading installer certification programs and manufacturer-based factory training. From start to finish, the work we perform on your home will include care, patience, and expertise to ensure that it looks beautiful and feels comfortable for years to come.

Window Depot did an amazing job replacing the windows on my 1950s-era home. Everyone I spoke with at the company was professional and helpful...Mike quoted a price lower than the other companies I spoke with; DeNika in the office kept me updated; and Rob and AJ, the installers, were timely, efficient, and very careful with the quality of their workmanship and cleanliness of the job when they were finished. Pamela G - Charlottesville

I would definitely recommend Window Depot! It was a great experience from the first visit to my new windows installation! There was never any pressure to buy, and the installation process was fully explained. The crew that installed my new windows were extremely professional, respectful of my property, and awesome to talk with! Sharon H - Mechanicsville

A 5-star experience with Frank from consultation to installation! Pete T. - Colonial Heights
